Planning for Community Meeting (1/16/03)

- Must address the food service ideas/concessionaire (Fred);
- Fred supports Bruce Drager for the native biology piece;
- Building Hours: Want to be open Sunday – could be closed Monday & Tuesday; Environmental Education Center should be the portal to the environment at the beach;
- Three parts to program:
 1. Teen Activities Jeff
 2. Environmental Education Bruce
 3. Food Service who will do this?

Comment and Discussion about the presentation:

Al Hughes: Shilshole is a better place for the marine biology labs the GGBH. The Port of Seattle is doing a building there, so could incorporate pumps (already there), tanks, and display.

Mark J: Perhaps have Kymera (facility consultants) report at 1/16/03 meeting; Talk to Susan Boyle about using Kymera for the food service analysis. Leave the report fairly open for discussion.

Mark J. Susan to give a little history on the Bathhouse. Pictures? Fred has good projections screen to offer if needed; Mark J. to call put Mareatha in touch with Fred re: publicity. Back of Pacific magazine perhaps.

- Fred suggests having Questions & Answers after each section of the presentation;
- Fred suggests taking the money spent on mailing and using it for some newspaper ads. Use a good photograph – talk with Susan Boyle about this.
- Should we contact Little Coney Island restaurant at the Port, and let them know what we are planning? Just a courtesy, perhaps.
